

## Technical Data

## Wireless Controller

### Product Overview

The Wireless Controller is a SimplySNAP component that can be installed anywhere you need wireless push-button lighting control, such as municipal ballparks, hockey arenas, basketball facilities, and other multi-use complexes.

The heart of the wireless controller is the SS450 site controller, contained in the NEMA 4X enclosure with 5 buttons that allow for controlled manual access to site lighting.

The Wireless Controller makes it easy for electricians to quickly install the SimplySNAP site controller and enables quick and simple access to a switch station that can be programmed to meet the needs of the end-user.

### Features

- Allows for dimming and Action Lighting capabilities
- Weather protected - perfect for both indoor and outdoor applications
- Optional, pre-configured 5-button switch to allow for control of all lighting within the facility
- External Ethernet port for connecting to IT network
